Ice Harbor Recommendations- As a rule of thumb we recommend one serving of beer for every guest. This is based on average consumption as well as alternatives to beer being offered. If you think your guests will consume more beer than average you can figure higher. It is also recommended that about 50% of your beer be a lighter beer like Kolsch, Lighthouse Lager, or Hefeweizen. The rest of your beer can be split between others. Stout is a beer that might be your favorite beer but is almost every brewery’s slowest seller. If you absolutely have to have stout at your event getting a case will probably be the best way to go.

Ice Harbor Root Beer- We offer Root Beer in 5 gallon soda kegs for **\$65**. These require CO2 to dispense. We offer the rental CO2 with a simple picnic tap setup for **\$25**. We also offer jockeybox rentals, to dispense root beer , for **\$100**.
